EHA Management LLC Memo

From: Adam Anderson
To: Whom it may concern
Date: 30th November 2013
Subject: **Drillex International - Armenia**

Drillex International completed two RC drilling programs for EHA Management in Armenia during November 2013 at two sites in Northern and then central Armenia.

The programs were completed with the minimum of hassle and Richie was easy to get along with and very helpful from the management perspective.

The crews supplied by Drillex were also very easy going chaps and showed considerable patience with the un-experienced Armenian off-siders.

Safety around the drillrigs was to a first world standard with good housekeeping and safety meetings being held. The Drillers went to lengths to explain safe working procedures to the off-siders.

The geologists were also appreciative of the respectful working conditions between them and the drillers and this resulted in a harmonious working environment.

Programs were completed in a timely manner and on budget with good sample recoveries achieved from the RC drillrig. The equipment provided was excellent and no major issues resulted due to equipment failure.

I would be happy to recommend Drillex International and Ricjie Rose to any exploration or mining company seeking drilling services.

Regards

Adam Anderson MAusImm MAIG

Director EHA Management
