**2<sup>nd</sup> April 2014**

**To whom it may concern,**

I am writing to recommend the drilling services provided by Drillex International who were engaged by Lydian to undertake an RC exploration drilling program on the Amulsar Project in Armenia during 2013.

The drillers provided by Drillex were professional, worked to international safety standards and integrated well with local labour hired to work on the rigs. Drilling equipment and consumables provided were of top quality and Drillex were very friendly and straight forward to deal with.

I am happy to recommend the services of Drillex, feel free to contact me should you have any questions.

Your Sincerely,

Alan Turner  
Manager of Technical Services, Amulsar
